CODING CHAMPS

JR

Grade
Grade 3 - 5

Type
Team of 2

Submission Language
English

Topics/Themes for Qualifier
Any topic of student's choice from the given list

Submission Guidelines
Pick a theme from the given list & create an interactive project using Scratch. You are required to code the project & then create a video explaining the thought process and showing the project in action.

Themes:
- **Save the Environment:** Design a project where characters take actions to save the environment through interactions. Make the project interesting by adding some game elements to the projects.

- **Space Exploration and Innovation:** The galaxy is full of mysteries, and you are on a mission to explore unknown planets and discover new life forms using special tools. Design an interactive scene where your character uses innovative technology.

Submission Type
Video

Video Duration
Max 3 minutes

Submission Deadline
5th January, 2025

Judging Parameters
- Creativity and Originality
- Alignment with Theme
- Interactivity and User Engagement:
- Technical Skill and Coding Proficiency
- Visual Design and Presentation
- Educational Value and Message Clarity

Skills Tested
- Coding Skills
- Creativity
- Conceptual Understanding
- Thinking Skills
- Communication

QUICK TIPS

✓ Both the participants should speak equally

✓ Show and interact with your project in the video

✓ Try to think out of the box

✓ Practice your speech beforehand. Speak with confidence.

✓ While recording the video, look directly into the camera lens

✓ Speak in a loud and clear voice

✓ Record the video in a well lit room where there is no disturbance or noise in the background

✗ Don't be nervous; The goal is to have fun!

✗ Don't exceed the time limit
